

## **Description**

HELPICO is the first coin for help and charity. In this era of a developing digital economy, the coin HELPICO is meant to become a tool of tokenization of humanitarian ideas implemented via blockchain technology.

The social mission of the coin HELPICO is to create an international ecosystem facilitating charitable initiatives. The coin HELPICO is a convenient payment tool for charitable and humanitarian aid organizations, as well as for solving other social tasks for the benefit of nature and the society.

Using blockchain technology in charity work has significant advantages as compared to the conventional ways of providing humanitarian aid and charitable assistance, namely:

- it streamlines and facilitates money transfers around the world;
- it provides for maximum transparency of financial operations.

## **Catalogue**

Helpico.io is an online catalogue for humanitarian and charitable initiatives via blockchain technology. The catalogue contains information on the charity funds, humanitarian organizations and individuals in need of help and financial support. One of the main conditions for being included into the catalogue is the ability of the applicant to receive and use the coins HELPICO (<https://www.helpico.io/catalogi>).

## **Charitable activity of coin HELPICO**

HELPICO is not a charity foundation.

HELPICO is a convenient tool that allows to simplify, speed up and secure charitable activities.

Alongside with the launch of the coin HELPICO, the initiating team starts their own charitable activity – helping nature and planet Earth. The acquired contributions will be distributed among the following funds: funds for nature and wildlife preservation, animal assistance, homeless animals protection, and other organizations providing assistance and protection to wildlife.

The contributions for this activity will be acquired via mining of the coins HELPICO.

On the main page of the site in the section "View Our Statistic", there is a counter "CHARITY", which shows the number of Helpico coins withheld from mining and intended for distribution between funds and organizations that provide assistance to nature.

For 12 months (the date of the creation of the coin was 22.08.2018 and up to today is 26.08.2019) the Helpico Coin Team achieved the following results:

## 6. Market capitalization (Market Cap)

Currently, 3 information cryptocurrency portals gave an estimate of the market capitalization of the Helpico coin. The average value of the market capitalization on 26.08.2019 is - \$ 58 000 000

Below is a list of these portals:

<https://coincodex.com/crypto/helpico/>  
<https://mnrank.com/coin/HELP/>  
<https://www.advfn.com/crypto/HELPICO-HELPC>

**Future plans:**

1. Listing coin Helpico on the exchanges from the list of TOP-10 cryptocurrency exchanges.
2. Appearance in the catalog of the option of sending and receiving internal messages between users (the first step towards creating a full-fledged social network on charitable topics).
3. Creating a fully multi-functional social network: registration, messages, adding photos and video files; search for people and organizations according to different criteria of requests, the internal system of payments by Helpico coins, and also other functions of social networks.
4. Further development of a network of information partners providing advertising support on a charitable basis.
5. Creating a mobile application.
6. Attraction of large international charitable foundations and humanitarian organizations as partners. The main task: the conclusion of agreements on the availability of these funds and organizations of Helpico wallets, which will provide an opportunity to provide charitable financial assistance in Helpico coins.
